### General notes

- Do not use browser options (Back and Forward).
- Preferably use Mozilla browser.
- If you have Mexican nationality even if you were not born in Mexico, select country of origin Mexico.
- Use the magnifying glass to consult catalogs.
- The correct way to add a new record in any section is to position yourself in the last record and click on the + (plus) symbol, with this way to update the information will avoid future problems in the different CONACyT programs.
- In the records, the first option takes us to the first record, the Last option takes us to the last record.
