resumen

Ciencia ergo sum, es el órgano académico de expresión, difusión y divulgación científica de la Universidad Autónoma del Estado de México. Aparece la segunda semana de marzo, julio y noviembre de cada año. En sus páginas se publican artículos científicos de cualquier área del conocimiento, de orden y de interés estrictamente académico; notas bibliográficas, entrevistas, semblanzas, análisis monográficos o información diversa sobre las áreas consideradas. También recibe trabajos de divulgación, entre los que se cuentan: reflexiones científicas y ensayo científico, poesía y literatura.

Once the procedures to be indexed in LATINDEX are completed, the Accommodation Authorization Form is signed.

Ecuador	Taiwan	
Peru	Nicaragua	Paraguay

1. **Mention of the editorial body.** It will be noted that the journal mentions the existence of an editorial board or a scientific officer.
2. **Content.** It qualifies positively when at least 40% of the published works are:
 - A. Original unpublished papers
 - B. Technical reports, standards or specifications
 - C. Papers or communications to congresses
 - D. Letters to the editor or short papers
 - E. Review Papers, state of the art, etc..
3. **Minimum age one year.** To be evaluated, the publication must have begun to be edited at least 12 months before the analysis is made. Semi-annual or annual publications must be evaluated with a minimum of three different fascicles. In all cases it should be evaluated with the most recent fascicles.
4. **Identification of the authors.** The works must be signed by the authors with name and surname or institutional author's declaration.
5. **Place of edition.** The place where the journal is published should be recorded in a visible place.
6. **Publishing entity.** The entity or publishing institution of the journal should be recorded in a visible place.
7. **Mention of the director.** The name of the publication's director, editorial manager or equivalent must be stated in the journal..
8. **Mention of the address.** The mailing or email address of the administration of the journal must be provided in a visible place for the purpose of requesting subscriptions, exchanges, sending works, etc..

9. **Presentation pages.** They should include full title, ISSN, volume, number, date and bibliographic letterhead.
10. **Mention of periodicity.** The journal must express or mention its periodicity or, failing that, the number of issues it will publish in the year.
11. **Table of contents (index).** It qualifies positively when it exists in each fascicle table of contents, index or summary in which the title, author and initial page data are recorded..
12. **Bibliographic letterhead at the beginning of the paper.** It qualifies positively if the bibliographic letterhead appears at the beginning of each paper and identifies the source.
13. **Bibliographic letterhead on each page.** It qualifies positively if the letterhead that identifies the source appears on each page of the published papers.
14. **Members of the editorial board.** It qualifies positively if the names of the members of the editorial board of the journal appear.
15. **Institutional affiliation of the members of the editorial board.** It qualifies positively if the names of the institutions to which the members of the editorial board are assigned are provided. It is not enough that only the country is indicated.
16. **Affiliation of the authors.** At least the name of the work institution of the author or authors of each paper must be provided. This information can be found both at the beginning and at the end of each paper, as well as in the "lists of collaborators" or "information about the authors" that appear between the first or between the last pages of a fascicle.

17. **Reception and acceptance of originals.** It qualifies positively only if it indicates both dates.
18. **ISSN.** The existence of an ISSN code will be considered positively.
19. **Definition of the journal.** In the journal, the objective, thematic and / or public coverage to which it is directed must be mentioned..
20. **Arbitration system.** In the journal should include the procedure used for the selection of papers to publish.
21. **External evaluators.** It should be mentioned that the arbitration system uses external evaluators to the entity or publishing institution of the journal.
22. **External authors.** At least 50% of the published works must come from authors external to the publishing entity. In the case of journals published by associations, authors belonging to the publishing entity will be considered those who are part of the association's board of directors or appear on the journal's team.
23. **Editorial opening** At least two thirds of the editorial board must be external to the publishing entity.
24. **Information services.** It qualifies positively if the journal is included in any indexing service, summaries, directories or databases. This field qualifies positively whether the database is mentioned by the journal itself or added by the qualifier.
25. **Periodic compliance.** It qualifies positively if the journal publishes the number of corresponding fascicles per year with the expressed periodicity.

- 26. **Original content** Positively qualifies if at least 40% of the papers are works of research, scientific communication or original creation.
- 27. **Instructions to the authors.** It qualifies positively if the instructions appear to the authors on the sending of originals and abstracts at least in a number of the year.
- 28. **Preparation of bibliographical references.** In the instructions to the authors should indicate the rules for the preparation of bibliographic references.
- 29. **Requirement of originality.** It qualifies positively if in the presentation of the journal or in the instructions to the authors this requirement is mentioned for the works submitted for publication.
- 30. **Summary.** All papers must be accompanied by a summary in the original language of the work.
- 31. **Summary in two languages.** Grades positively if summaries are included in the original language of the work and in a second language.
- 32. **Keywords.** Positively qualifies if keywords or equivalent are included in the original language of the work.
- 33. **Keywords in two languages.** To qualify positively, keywords or equivalent must be included in the original language of the work and in another language.

Thank You Very Much
