Abstract

Appropriate title

Objectives, methodology, what development?

What is the main contribution?

What do you highlight? What are the possible results obtained?.

Introduction

Explanation of the topic in general and explain why it is important.

What is its added value compared to the other techniques?

Clearly focus on each of its characteristics

Explain clearly the problem to solve and the central hypothesis.

Explanation of the sections of the paper

Theoretical framework

Who has contributed something over time?.

Comparison of models

Possible table with authors and modifications to the proposed model over time.

Methodology to be developed

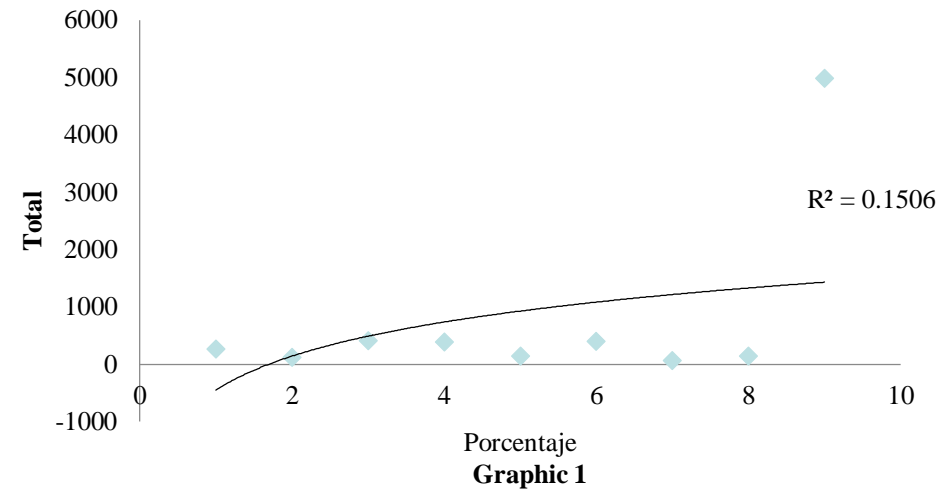

Give the meaning of the variables in linear writing and it is important to compare the criteria used

Tables and suitable sources

Modality	Activities of the Value Chain
Financial cooperation	The need for financial resources and the difficulty in finding financing
Technological cooperation	The rapidity in the development of the technology and its complexity
Cooperation in production	The fundamental search for acquiring scale and within-reach economies that permit the reduction of production-associated costs and risks
Commercial cooperation	Seek the following objectives: reduce costs and risks in the commercialization process, penetrate new markets, complete the gamma of products offered, procure access to distribution channels, etc.

Table 1 Cooperation Agreements regarding Strategic Action

[CITAS] Basic topological structure of fast basins
[MF Barnsley, K Lesniak - arXiv preprint arXiv:1308.4230, 2013 - arxiv.org](#)
Fractal continuations, fast basins, and fractal manifolds were introduced in [Barnsley et al 1]; fractal continuation of analytic and other functions was introduced in [Barnsley & Vince 2]. In this paper we establish some topological and geometrical properties of continuations ...

Explain the results clearly

There are no footnotes

Write everything step by step and with a good nomenclature and specification of everything

Apud = quoted by

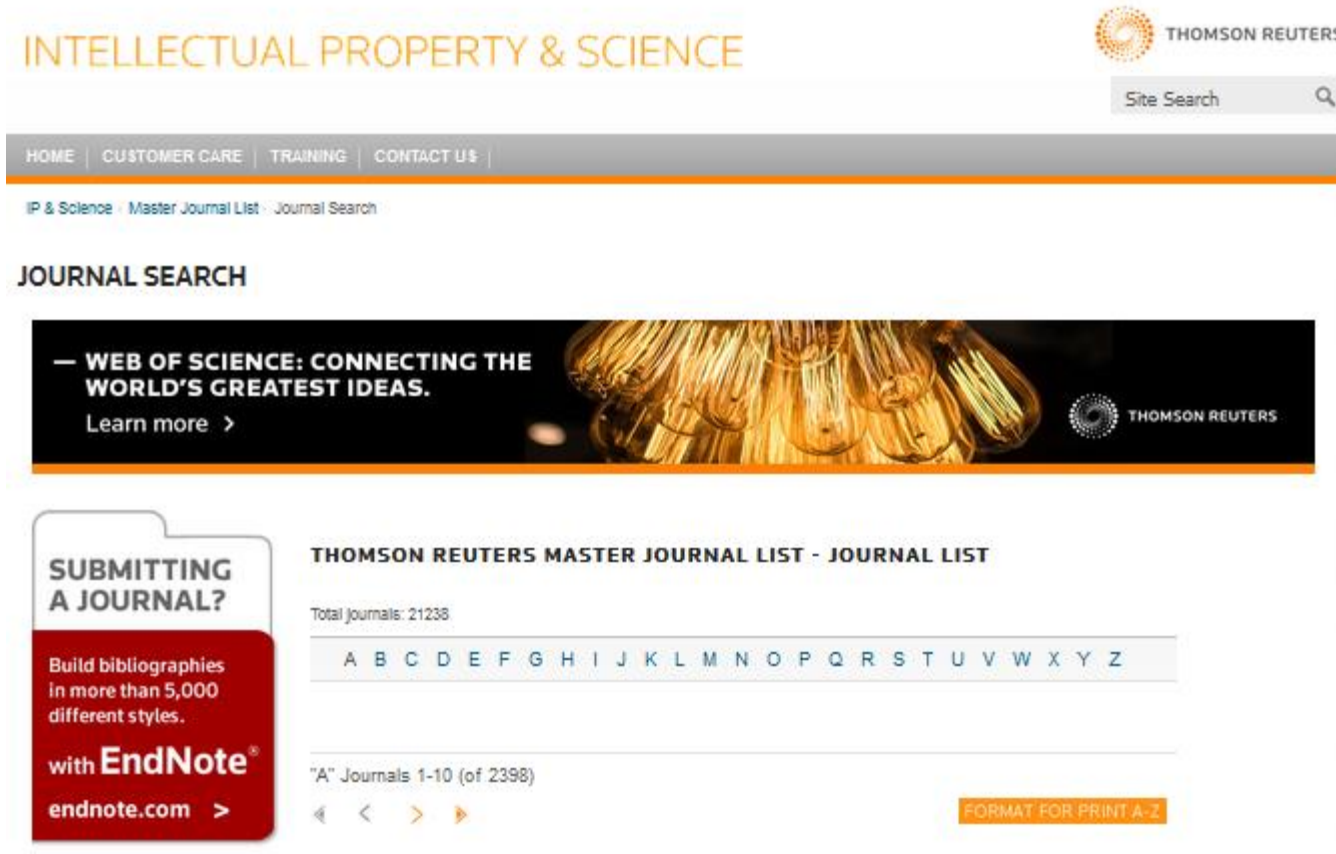

Id. = Idem (by the same author): replaces the author's name in notes cited on the same page.

Id. Ibid = Idem, Ibidem (by the same author and the same work): replaces the reference to the same work cited on the same page

Loc. cit. = *locus citatum* (in the cited place): replaces the title and other elements of the work cited in a previous note, on the same page, with the exception of the page number.

Op. cit = *Opus citatum* (in the cited work): substitute the title and other elements of the work cited in a previous note, on the same page, with the exception of the page number.

Sic. = "Likewise"

The screenshot shows the Thomson Reuters Master Journal List website. At the top, there is a navigation bar with links for HOME, CUSTOMER CARE, TRAINING, and CONTACT US. Below this is a search bar labeled "Site Search". The main content area is titled "INTELLECTUAL PROPERTY & SCIENCE" and "JOURNAL SEARCH". A banner features the text "WEB OF SCIENCE: CONNECTING THE WORLD'S GREATEST IDEAS." with a "Learn more" link. Below the banner, there is a section for "THOMSON REUTERS MASTER JOURNAL LIST - JOURNAL LIST" with a total of 21,238 journals. A navigation bar lists letters A through Z. The current view is for "A" Journals 1-10 (of 2398). A "FORMAT FOR PRINT A-Z" button is visible. On the left, there is a red box with the text "SUBMITTING A JOURNAL? Build bibliographies in more than 5,000 different styles. with EndNote® endnote.com >".
